SATC WEBINAR | 10 June 2020 | 10am -11:30am (SAST)

**THE IMPACT OF COVID-19 ON
SUSTAINABLE TRANSPORT AND MOBILITY:
LESSONS LEARNT SO FAR**

IRF & SATC Workshop

10 June 2020, 10:00 – 11:30 (SAST), by Web Conference

The International Road Federation (IRF) in Geneva and the South African Transport Conference (SATC) Board are pleased to announce a joint webinar to be held on June 10th, 2020 from 10.00 to 11.30 am (SAST).

The Southern African Transport Conference (SATC) is the longest running transport conference in the region. Beside the presentation of research and technology transfer papers, capacity building in the form of courses has always been one of its key focus. The SATC has always served as a forum to debate current transport related issues. The current pandemic has forced the organisers to postpone the conference to 2021 but has not managed to silent the willingness to share expertise and knowledge. Hence SATC Board and IRF have decided to organise a series of webinars to address key topics that were central to the conference but to do so in the light of the current situation.

While reviewing current international scenario, this first webinar will focus on the impacts that COVID-19 has had and is having on Sustainable Transport and Mobility in Africa and in general in low and middle income countries. The situation of these countries largely differs in many ways from that of countries and cities in Europe, the USA or Australia. There's an urgent need to discuss and better understand needs in order to tailor adequate solutions.

For more information please contact: satc.conference@gmail.com

Key takeouts

- Get to grips with Covid-19's impact on the transport sector in the Southern African region
- Understand the macroeconomic impact Covid-19 has had on the sector worldwide
- Learn more about emerging transport innovations

Speakers

Susanna Zammataro

Director General

International Road Federation

In her capacity as Director General of the International Road Federation (IRF) in Geneva, Switzerland, Susanna Zammataro has been actively involved in multinational discussions, including at the United Nations (UN), on the impact Covid-19 is having on the transport industry. Along with her responsibilities at the IRF, Ms Zammataro is a member of the Federation Internationale de l'Automobile (FIA) high-level panel on road safety and has, since 2012, been co-chair of the UN Road Safety Collaboration group, aimed at strengthening global and regional cooperation on road safety. Ms Zammataro is also involved in the World Bank's Sustainable Mobility for All initiative, as an expert on efficiency, safety and gender.

Martin Humphreys

Lead Transport Economist

WORLD BANK

Martin Humphreys is a Lead Transport Economist in the World Bank's Transport unit, and the Global Leader for the bank's Transport Connectivity and Regional Integration, Maritime Transport and Logistics division. Mr Humphreys has nearly 30 years' wide-ranging experience in the transport sector in a number of countries and regions, including Denmark, Russia, the United Kingdom, Eastern Europe, South Asia, the South Caucasus, the Baltic States, the Western Balkan countries, and East and Southern Africa. He is a specialist in post-conflict, fragile and low- and middle-income countries and has a doctorate in Transport Economics.
