Among other things, cookies help to make your visit to our website easier, more pleasant, and more meaningful. We use cookies for various purposes that are necessary, i.e. "technically required", for your desired use of the website. For example, we use cookies to be able to identify you as a registered user after logging in, without you having to log in again each time when navigating the various sub-pages. The provision of the shopping basket and order function is also based on the use of cookies. Cookies are also used for security purposes, for example to prevent the unauthorised posting of content. Finally, we also use cookies as part of the design and programming of our website, e.g. to enable the uploading of scripts or codes.

The legal basis for this data processing is our legitimate interest within the meaning of Art. 6 para. 1 lit. f EU-GDPR in providing a user-friendly and up-to-date website.

The provider will use this information on our behalf to evaluate the use of the website, to compile reports on website activities for us and to provide other services related to website and internet use for the purposes of market research and needs-based design of these internet pages. For these processing operations, we and the providers may to a certain extent be considered joint data controllers.

The legal basis for this data processing with the following tools is your consent within the meaning of Art. 6 para. 1 lit. a EU-GDPR. You can revoke your consent or refuse processing at any time by rejecting or deactivating the relevant cookies in your web browser settings or by making use of the service-specific options described below.

For the further processing of your data by the respective provider as the (sole) data protection controller, in particular also any forwarding of this information to third parties such as authorities on the basis of national legal regulations, please refer to the respective data protection information of the provider.

On our website research4cap.org we do not use any tracking tools. The tracking tools used on the other websites are listed below.

4. Registration to the Newsletter

If you register for our e-mail newsletter the following data will be collected. Mandatory data is marked with an asterisk (*) in the registration form:

- Email Address*
- First Name*
- Last Name*
- Organization*
- Country*

In order to avoid misuse and to ensure that the owner of an e-mail address has actually given their consent, we use a double opt-in procedure for registration. After sending the registration form, you will receive an e-mail from us containing a confirmation link. In order to definitely register for the newsletter, you must click on this link. If you do not click on the confirmation link within the specified period, your data will be deleted again, and our newsletter will not be sent to this address.

By registering, you consent to the processing of your data in order to receive messages from us about our organisation, our events and related services. This may also include invitations to participate in competitions or to evaluate services. The collection of the name allows us to verify any link between the registration and a possibly already existing customer account and to personalise the content of our messages to you. The link to a customer account helps us to make the offers and content contained in the newsletter more relevant to you and better tailored to your potential needs.

We will use your data to email you until you revoke your consent. Revocation is possible at any time, in particular via the "Manage your Subscription" link in all our newsletter emails.

Our marketing emails may contain a so-called web beacon or 1x1 pixel (tracking pixel) or similar technical tools. A web beacon is an invisible graphic that is linked to the user ID of the respective newsletter subscriber. For each marketing email sent, we receive information on which addresses have not yet received the email, to which addresses it was sent and for which addresses the sending failed. We also see which addresses have

Email: info@irfnet.ch

opened the email, for how long and which links they have clicked on. Finally, we receive information about which addresses have unsubscribed. We use this data for statistical purposes and to optimise our promotional emails in terms of frequency, timing, structure, and content. This allows us to better tailor the information and offers in our emails to the individual interests of recipients.

The web beacon is deleted when you delete the email. To prevent the use of the web beacon in our marketing emails, please set the parameters of your email program so that HTML is not displayed in messages if this is not already the case by default. In the help section of your email software you will find information on how to configure this setting, e.g. [here](#) for Microsoft Outlook.

By subscribing to the newsletter, you also consent to the statistical evaluation of user behaviour for the purpose of optimising and adapting the newsletter. This consent constitutes our legal basis for the processing of your data within the meaning of Art. 6 para. 1 lit. a EU-GDPR.

We use the email marketing solution Mailchimp that is provided by The Rocket Science Group, LLC, 675 Ponce de Leon Ave NE, Suite 5000, Atlanta, USA, for the delivery of newsletters. Your data will be stored in a database of Mailchimp, which allows Mailchimp to access your data if this is necessary for the provision of the software and for support in the use of the software. You can find the privacy policy of Mailchimp under the following link: <https://www.intuit.com/privacy/statement/>.

The legal basis for this processing is our legitimate interest within the meaning of Art. 6 para. 1 lit. f EU-GDPR in the use of third-party services.

This provides the network with the information that you have visited our website with your IP address and clicked on the link.
